

Hannah Vogel

Coached by Marcus Reid · Evaluated Aug 21, 2026, 6:05 PM

“Connect every current block to the client's named 12-month vision and get him to articulate why the outcome matters.”

Do this and the call would have scored **84**.

EVIDENCE

L12 Hannah Vogel: *“Yeah exactly, and it wasn't like, agony, it wasn't 2019 fall level, but it was that sort of nagging ache down the outside of the hip, you know the one.”*

L41 Marcus Reid: *“I believe it. Right, one more quick check before we set the plan for today, how's sleep been, generally, because that always ties into how the hip feels and how much patience you've got for anything extra.”*

Technically attentive and strong on adapting the plan when the client got worried, but the coaching was aimed at the exercises rather than the journey. He left relieved and re-booked, without the long-term belief that makes a client stay.

🚩 No connection to long-term vision at any point

The work is being coached, not the outcome. A client who cannot see where this leads re-evaluates at renewal.

EVIDENCE

L41 Marcus Reid: *“I believe it. Right, one more quick check before we set the plan for today, how's sleep been, generally, because that always ties into how the hip feels and how much patience you've got for anything extra.”*

INCONSISTENT

Technically present but emotionally flat. Retention risk building quietly.
